APPROVAL OF STATE ENGINEER
This permit to change the point of diversion of a portion of the waters of an underground source as heretofore granted under Permit 28326 is issued subject to the terms and conditions imposed in said Permit 28326 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. The total combined duty of water under Permits 28326, 45594 and 45595 shall not exceed 636.94 million gallons annually.
The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not
to exceed 2.37 cubic feet per second, but not to exceed 559.1
million gallons annually.
Work must be prosecuted with reasonable diligence and be completed on or before
Proof of completion of work shall be filed before
Application of water to beneficial use shall be made on or before
Proof of the application of water to beneficial use shall be filed on or before
Map in support of proof of beneficial use shall be filed on or before
Completion of work filed. DEC 9 1983 IN TESTIMONY WHEREOF, I. PETER G. MORROS
